DY 878

Automatic Pocket Attaching Machine

Product Introduction / Features

Uses an industrial computer control system.
Suitable for various types of pocket attaching processes.
Provides high-speed and stable sewing with neat stitch quality.
Automatic functions include:

- Automatic feeding
- Automatic fabric folding
- Automatic pocket pattern setting
- Automatic sewing
- Automatic fabric collection after sewing

Uses direct-drive servo motor technology, replacing the traditional motor for:

- Lower power consumption
- Reduced installation space
- Improved response

Uses high-strength, lightweight materials in the machine structure.
Important components are manufactured using precision machining centres and laser-cutting technology.
Equipped with a 7-inch high-performance touchscreen control panel.
New sewing patterns can be created and existing patterns modified through the control panel.
CAD curves can be imported to automatically generate stitch lines.
Supports different pocket shapes, including:

- Rounded corners
- Right-angle corners
- Bevel/angled corners

Uses air-cushion translation technology for accurate and smooth fabric feeding.
High-response servo system.
Empty feeding speed up to 60 metres/minute.

Model number	DY 878
Machine Head	Brother-7300 (brother)
Sewing range	500mm × 280mm
Needle model	DPX17 16-23#
Number of Needle	Single needle
Number of lines	Double line
Stitch type	Lockstitch
Drive form	Electric
Sewing speed	4000 rpm
Total weight	650KGS
Air pressure, air consumption	0.5Mpa (5kgf/cm ²) 220dm ³ /min
Dimensions (length*width*height)	1860 × 1080 × 1680mm
